My Thanks

It seems the more MODEified editions we do, the longer it takes.... but the better they get! This by far became the longest project undertaking with an impressive 14 months in production. Rafi was back for the copying and BRAT back for the mastering! Special thanks to them for taking some of the workload off me.

We continue to strive for and achieve that great feeling of joint effort and collaboration that the MODEified series has come to represent! Thanks to Francisco Jose Gamiz for the front cover art, Damon Moreno for the back cover and special art mention to Henry Yung. Now! Go hop in your hammocks and enjoy another edition of MODEified.....! Keep tuned to BONG for the latest on MODEified and the Official Webpages!

Thanks everyone! Take Care and PeaceRob Augino
